Elbit Systems Awarded the 2014 Dun & Bradstreet Business Excellence Award

Elbit Systems was awarded the 2014 Globes ”Dun’s 100 Business Excellence Award”, which ranks leading companies in Israel. Elbit Systems was one of ten companies selected for this award.

Elbit Systems President and CEO Bezhalel (Butzi) Machlis received the award on behalf of Elbit Systems at a ceremony held at the Tel Aviv Museum. Thanking the advisory board, Machlis promised that excellence will continue to be a guiding principle for the company’s growth in all parameters. Machlis said that Elbit’s aim was to continue being a technologically innovative company that is also an incubator for new technologies that enhance safety and security.

The award is granted every year to leading Israeli companies who excelled in their business activity in the preceeding year. The rankings are based on set, defined and measured criteria and are undertaken in cooperation between Dun & Bradstreet Israel Group economists and editorial staff of the Globes financial newspaper, including highly professional researchers, journalists and editors.

About Elbit Systems

Elbit Systems Ltd. is an international high technology company engaged in a wide range of defense, homeland security and commercial programs throughout the world. The Company, which includes Elbit Systems and its subsidiaries, operates in the areas of aerospace, land and naval systems, command, control, communications, computers, intelligence surveillance and reconnaissance ("C4ISR"), unmanned aircraft systems, advanced electro-optics, electro-optic space systems, EW suites, signal intelligence systems, data links and communications systems and radios. The Company also focuses on the upgrading of existing platforms, developing new technologies for defense, homeland security and commercial aviation applications and providing a range of support services, including training and simulation systems.
